

Complete this form where a program review results in major changes to the overall program structure, graduate outcomes and/or content

1.0 Program title: List all programs affected by this change, including where relevant any proposed change to program title/s:
2.0 Rationale for the change: This section should set out the context in which the change is proposed and the broad reasons for the change. It should address the following where relevant: <ul style="list-style-type: none"> • rationale for the change; • effective date of change.
3.0 Description of the Changes: Describe all the changes. Include where relevant: <ul style="list-style-type: none"> • changes to Admission Requirements, Degree Requirements and program structure *; • requirements for honours; • details on any new or changes to current work experience/industry based practicum requirements; • capstone course/s; • details about nested qualifications; • research content in a masters program. <p><i>[* This is to be marked up to show what changes are being proposed to the currently approved program. School admin staff will download a Microsoft Word document from the Programs and Courses website. Include at the bottom of this form.]</i></p>
4.0 Mode of Delivery: Indicate whether the program change is accompanied by any change in the general requirements for students to attend on campus or at other locations, or, if the program is not delivered on campus, what the students are required to do to undertake the program.
5.0 Transition Arrangements: Specify the arrangements which will apply to students currently enrolled in the program. These arrangements should be presented in sufficient detail to form the basis of advice to current students to facilitate their enrolment.
6.0 Effects of the changes on other University programs: Do the changes have any impact on other programs offered by the University? If so, have the other Groups/Schools/Departments been consulted and can the changes be accommodated? Provide details.
7.0 Course descriptions: Provide 40-word descriptions for all new courses being added to the program.
