1.0 PROGRAM AND AWARD TITLES

A program title comprises the qualification type and the field of study. The award title is the same as the program title. Shortened forms of the program and award title may be used, in accordance with this schedule of abbreviations, by using the abbreviation for the qualification type and the field of study together.

Abbreviations of the program and award title may be used by the University to promote and market the qualification or by Griffith graduates as postnominals. Postnominals using in combination the abbreviation for the qualification type and the field of study are usually placed immediately following the graduate's title and name.
