

Schedule of High Risk Biological Materials monitored by the University Biosafety Committee

Approving authority	Senior Deputy Vice Chancellor
Approval date	12 September 2014
Advisor	Deputy Director, Research Policy Office for Research abc@griffith.edu.au (07) 373 54278
Next scheduled review	2015
Document URL	http://policies.griffith.edu.au/pdf/Schedule of High Risk Biological Materials.pdf
TRIM document	2014/0003532
Description	This schedule outlines the high risk biological materials, other than genetically modified organisms, and materials regulated by quarantine legislation, that are monitored by the University Biosafety Committee. This schedule should be read in conjunction with the constitution of the University Biosafety Committee.

Risk Group 4 microorganisms, as defined by the Australian/New Zealand Standard AS/NZS 2243.3:2010 Safety in laboratories – Microbiological safety and containment
Risk Group 3 microorganisms, as defined by the Australian/New Zealand Standard AS/NZS 2243.3:2010 Safety in laboratories – Microbiological safety and containment
Prions , as indicated in (but not limited to) the Australian/New Zealand Standard As/NZS 2243.3:2010 Safety in laboratories – Microbiological safety and containment
Risk Group 2 microorganisms requiring special precautions or those that are transmissible by respiratory route, as indicated in the Australian/New Zealand Standard AS/NZS 2243.3:2010 Safety in laboratories – Microbiological safety and containment
Unscreened specimens including human tissue known to contain microorganisms from risk group 2, 3 or 4, or have not been screened for infectious disease; animal tissue or body fluids that could contain zoonosis or have not been screened for such
Infectious or potentially infectious animals, tissues or fluids involving microorganisms from risk group 2, 3 or 4
Biological Toxins such as venoms and other toxic substances produced by microorganisms, animals or plants (excluding toxoids). Includes poisonous or venomous animals such as snakes, spiders and cone shells
Security Sensitive Biological Materials (SSBA's) Tier 1 and Tier 2 agents as listed under part 3 of the <i>National Health Security Act 2007</i>

Biological Materials on the Defence Strategic Goods List (DSGL)

Other Risk Group 2 microorganisms deemed by a risk assessment to be high risk may also be referred to the University Biosafety Committee by the relevant Academic Group.
